

### ERASMUS+ KA3 Youth Steering Group

On 29 June 2020, young people and youth coaches of the Youth Steering Group from Finland, Greece, Slovakia and Serbia, supported by the YEPP EUROPE Team, held a statutory online meeting in the framework of the KA3 Project - Support for Policy Reform Civil Society Cooperation in the field of Youth. The objectives of the group are to connect, engage and empower members of the group through taking decisions and sharing responsibilities, collect recommendations for the topics and format of future YEPP activities, both in-person and online, as well as define local issues and connect them to global issues and European Youth Goals. The group has developed and designed the survey of young people which was launched Europe-wide in July 2020: <https://kwiksurveys.com/s/DEKVuEwG>. The survey runs until 15 October 2020, and is aimed to reach 1000 young people. The goal is to collect direct feedback of young people on their preferred learning formats, as well as priorities for the topics. Results will be published in an article in SALTO-News and social media. They will also be used to design local and international capacity-building programmes for youth in the YEPP Community Network. The next meeting is planned for November 2020
