

### [ERASMUS+ KA3: Working Group on Youth Policy Development](#)

On 16 June 2020, the Working Group on Youth Policy Development of the KA3 – Support for Policy Reform Civil Society Cooperation in the field of Youth held a statutory online meeting. Partners from Germany, Austria, Greece, Finland, Croatia, France and Slovakia met to discuss youth policies from across Europe by presenting good practice examples from the above countries, as well as gaps and shortcomings with regards to youth policies. A special focus was put on evidence-based policy making where tools like Eurostat, Youth Wiki and Youth Flash Eurobarometer were presented. A special guest from the organisation Out of the Box International, based in Brussels, led a discussion on EU Youth Policy development, implementation and monitoring. The group will further deepen its work and exchange by producing a data collection of youth policies from across Europe along with recommendations. Also, the members will actively promote the EU instruments of evidence-based policy making through an online campaign.
